

JioMeet is a homegrown HD video conferencing and content sharing application. With JioMeet, you can schedule calls or instant meetings with up to 1000 attendees from anywhere at any instance. You can collaborate across devices and join meetings from mobile, desktop or any VC enabled devices. It enables you to simultaneously switch between devices during an active call for seamless participation. It facilitates creation and managing group calling with the use of in-call functionality and invite sharing during an active call to manage meetings effectively.
