TOLL-FREE SERVICE
Keep your business accessible
24x7 for customers from anywhere

Toll-Free Number (TFN) is a virtual single number that customers can dial to reach a business anytime, anywhere from across the nation, absolutely free of charge to them. Jio TFN Service is based on state-of-the-art fully convergent IP Multimedia Subsystem (IMS) platform. These numbers are accessible by all the operators across India. This service comes with Self-Care portal to define terminating number and intelligent routing on a real-time basis.

With Jio's TFN you get intelligent routing to meet your business requirements:

Region Based	Time Based	Load Based	Combination Based
• Personalized treatment to callers basis region of call origin	• Manage distribution of calls basis time of day	• Distribute call traffic between various locations	• Combine two different routings to create specific routing logics
• Define different routing of incoming calls basis region	• Define separate routing logics basis day of week or holidays	• Optimize call center and manpower costs	• Create your own routing logic by combining various call routing and distribution logics
