

## Synway 8 Port GSM Gateway

### Description:

Built on decades of IP, multimedia processing and wireless technologies, Synway's GSM/CDMA wireless gateway, as a part of the Sunway gateway family, is used for reliably bridging GSM/CDMA network with the VoIP network. With push-pull SIM card sockets for easily installing the SIM cards, it adopts advanced built-in VoIP processors and GSM/CDMA modules, and enables ISPs and VoIP solution providers to deliver highly available and versatile wireless-to-IP systems, effortlessly and cost-efficiently. Support standard Sip protocols, and could be used worldwide; Support both 2G/3G/4G wireless networks, including both GSM/CDMA/LTE and More. High Voice Optimization Capability Adopt Sunway's homegrown voice optimization technologies to ensure crystal clear communication, including DSP-based 128mc echo cancellation. High Flexibility and Scalability Could be configured from 2~32 Ports of Wireless-to-IP transmission, and support a diversity of wireless networks in a single system.

### Technical Details:

Brand	Sunway
Manufacturer	Sunway
Model	SMG4008
Item model number	SMG4008
Batteries Included	No
Batteries Required	No
Has Auto Focus	No
Programmable Buttons	No
Manufacturer	Sunway

### Additional information:

**ASIN: B07B22BKCN**
